MEMORANDUM FOR: Director of Central Intelligence

FROM : Special Assistant for Interdepartmental Affairs

SUBJECT : Breakfast Meeting with Deputy Secretary of Defense Carlucci,  
7 May 1982

1. The agenda for your meeting tomorrow morning includes three items:

- [REDACTED]
- Carlucci trip to Central America
- Falkland Islands Crisis

25X1

2. You indicated that you have quite a bit that you wish to pass on from your trip. I believe that you would be interested also in Carlucci's report on his recent trip. One issue that he raised last week as a result of his trip came from discussions he had with General Nutting, CINCSOUTH, regarding CIA support. Nutting is not satisfied with current arrangements whereby our liaison officer reports back through and receives support from [REDACTED] Nutting would prefer to have his own direct link back to you. John Stein's position is that we are providing support the only practical way possible. We should not provide an independent channel back to the DCI. Admiral Inman discussed this with Carlucci, but the subject might come up again.

3. For more background on the Nutting/CIA and other issues, I am including the breakfast book from last Friday as well as a copy of the memo for the record. On many of our joint projects, funding discussions are at a standstill until the FY 83 budget is classified.

4. Regarding the Falklands, John McMahon told me that he gave you a briefing on yesterday's NSPG meeting. You will receive the latest information and talking points with your morning material tomorrow.
